f) Evaluate potential upside in security situation post implementation of the project

2. **Development of a Security Strategy and Implementation Plan**

a) Based on the SRA, develop a detailed, multi-layered security strategy.
b) Propose a combination of physical security measures (e.g., fencing, patrols), technological solutions (e.g., CCTV, drones, remote sensing), and personnel requirements (e.g., number and type of guards).
c) Design a security monitoring and intelligence-gathering system to provide early warnings of threats.
d) Develop protocols for incident response, emergency management, and crisis communication.
e) Formulate a community engagement and relations strategy to build positive relationships with local stakeholders and mitigate potential conflicts.

b) A detailed, costed Security Strategy and Implementation Plan.
